THE WEATHER.**BRIEF REPORT.**

FORECAST—For Los Angeles and vicinity: light southwest winds. For San Francisco and vicinity: fog morning and night; cloudy; fresh south wind. Sunrise, 4:45 a.m.; sunset, 7:00 p.m.; moon, 12:30 a.m.; Tuesday.

YESTERDAY—Maximum temperature 60 deg.; minimum, 56 deg. Wind 5 m., southwest; velocity, 3 miles; 5 m., southwest; velocity, 8 miles. At night the temperature was 59 deg.

TODAY—At a.m. the temperature was 57 deg. (The complete weather report, including comparative temperatures, will be found on page A.)

WOO AND WED ON WHEELS.

Meet on Roller Skates, Fall in Love in Auto and Are Married by Minister on Motorcycles.

[By DIRECT WIRE TO THE TIMES.] **PHILADELPHIA**, June 2.—[Exclusive Dispatch.] Cupid's annals up to date do not contain a record of a more modern courtship and elopement than that of Pearl Frances Indig and Albert K. King, who met on roller skates, eloped in an automobile, and were married by a clergyman who rode a motorcycle.

The whole affair took place on wheels, fittingly enough, for Mrs. King is an expert roller skater, and her husband one of the most progressive young automobile men in town.

The young couple met at a skating rink last March, and since then they have skated and motored together constantly. On Memorial Day the two took a run to Atlantic City in an automobile and on their way back to town decided suddenly to get married. A minister appeared on the scene. He was riding a motorcycle, but obligingly dismounted, put his machine in the tonneau of the car and returned with the young people to Hammonton, N.J. Here they procured a license, and were married at the Hotel Royal.

PRESIDENT'S IDEA SUITS NEWLANDS.**NEVADA SENATOR PRAISES PLAN TO CURB RAILWAYS.**

In Interview Declares Chief Executive's Use of Power of Recommendation Is Extensive, but Thinks No Exception Can Be Taken to Good Use of It.

[By THE ASSOCIATED PRESS—P.M.] **BOSTON**, June 2.—[Exclusive Dispatch.] Dr. Henry Pickering Walcott, senior member of the Harvard corporation, said today:

"President Roosevelt is one of the most loyal of Harvard men and of course very friendly to the college; but there is no possibility of his ever becoming president of the university."

Dr. Walcott's statement was evoked by the remarkable utterance which the President is reported to have made to a delegation of Harvard men at Lancaster, Mass.

"In a year and eleven months I expect to be an active member of the organization."

This was interpreted by Harvard men to mean that the Chief Executive would leave the White House to become the head of the university.

Dr. Walcott, who heads the corporation which controls Harvard, said:

"I've heard frequent reports that President Roosevelt aspired to head the faculty at Harvard when he left the White House, but there is not the slightest ground for any report that Dr. Elliot is to resign to work for Mr. Roosevelt come to Cambridge. As a friend of President Roosevelt I have reason to believe in common with others, that his earnest hope after his term at the White House is to become Senator from New York State."

"Mr. Roosevelt is the first President to thoroughly avail himself of his constitutional power of recommendation. Most of our Presidents have been merely executive officials. But so long as Mr. Roosevelt's recommendations are good, it can be taken that any exception can be taken if he makes up a new ideal of Presidential duty as a leader of public opinion and legislation."

"On the whole, I think his address was excellent. I have long entertained the view that the nationalization of great railway systems and control of their capitalization by the Interstate Commerce Commission as he has frequently expressed them in magazine articles and speeches."

"He is not yet prepared to go as far as I am, but he will be far from his standpoint, but my mind has always reached out for full and comprehensive national legislation that would protect the public, the railroad employees and the real investors in railroads in politics. I have always felt that it was illogical to expect capitalization aggregating billions to keep out of politics, unless the law governing with certainty just rules, taxes, and duties to the public and to their employers."

As an earnest of his recovery, he turned to his friends and said: "I have not been completely

engaged by Joseph Roberts, caught the full force of the gale. This was what the neighbors called a spite house, and there was some rejoicing over the fate it met. An effort had been made by a realty company to buy the plot on which it stood, but Mr. Roberts declined to sell and started to erect a building to protect his title.

The gale split this incomplete structure, and a section fifteen feet apart across two rods across the lot. Helmer Rubenstein, a watchman, was asleep in the house, but the roar of the gale startled him and he ran out just in time to escape injury.

In front of the Catholic rectory on the Union Port road, several large trees were uprooted and a huge board fence on one side of the institution was blown down.

A large fence on one side of Borough Hall in the avenue was overturned and numerous signs and billboards in that vicinity were blown away.

Several shanties in Third avenue near One Hundred and Eighty-third street were blown down.

CONEY ISLAND CLOSED.

New York was in the grip of what seemed real winter. From early morning until midnight a fine drizzling rain was driven by a steady gale, and the temperature hovering around 46, called out heavy coats and furs.

At 10:30 o'clock the government thermometer showed a temperature of 45, which is the lowest recorded for June in thirty-six years. On June 6, 1878, a temperature of 47 was recorded and on June 18, 1881, a temperature of 53. Private records show that on June 2, 1845, the mercury went to 45, but there is no record of a colder June day, than this year.

The exact cause of the death can never be known. Perkins went up on the roof at 6 o'clock. A man working on the roof saw him totter over, and gasped his last.

He carried life insurance amounting to about \$450,000, and most of this was written within the past six months.

Mr. Perkins entertained the Supreme Court judges at one time and has entertained nearly everybody in Lawrence since the time he was opened.

He was secretary of the State Examining Board for Lawyers, and last year president of the State Bar Association. He had arranged his business preparatory to leaving for Canada to practice law.

He was prominent in Masonic circles and was supposed to be quite wealthy. Funeral arrangements have not been made.

LUCIUS PERKINS DIES.

President of Kansas Bar Association Never Recovers from Accidental Fall.

[By DIRECT WIRE TO THE TIMES.] **LAWRENCE** (Kan.) June 2.—[Exclusive Dispatch.] Lucius H. Perkins, who fell off the top of his fine home in this city, died last night without regaining consciousness.

The exact cause of the death can never be known. Perkins went up on the roof at 6 o'clock. A man working on the roof saw him totter over, and gasped his last.

He carried life insurance amounting to about \$450,000, and most of this was written within the past six months.

LAND HOLDERS MUST HURRY TO SAVE INVESTMENTS.

SITE OF STEEL COMPANY'S NEW TOWN IN INDIANA BROUGHT INTO COURT FOR THE PURPOSE OF PROVING OWNERSHIP. MANY FAMILIES INTERESTED BY RIGHT OF PAYMENT.

[By DIRECT WIRE TO THE TIMES.] **WASHINGTON**, June 2.—[Exclusive Dispatch.] Japan looks to the winning of the trade of China as a weak point in its armor, as a first-class power—its finances. Thornwell Haynes, American Consul at Nanking, China, has forwarded to the State Department a report by the Japanese Consul-General at Tien-tsin, calling upon the Japanese business public to give its attention, not only to the vast commercial possibilities of Manchuria, but to wrest from England the trade supremacy of the densely populated and fertile valley of the Yangtze-Kiang River. The key to the argument of this Japanese official is found in this extract of his report:

"If business can be worked up to such a point of activity that about one-half of the Chinese trade is secured by the Japanese, we may maintain her own against the leading powers of the world, as in that case her financial position will be greatly strengthened. I do not see any reason why the Japanese should trouble themselves about visiting America or Australia to make their fortunes. Is there not a gold mine, discovered by them, quite within the reach and scope of their influence? Westward the star of business takes its way."

Consul Haynes, upon getting possession of this report, was prompt to recognize its importance. He transmitted it to the State Department in the hope that the American business world might see the inviting field through Japanese eyes and recognize that Japan is the commercial rival most to be feared in the conquest of the Pacific to which President Roosevelt has urged the country. The Japanese Consul-General's report says, in part:

"The state of trade between Japan and China has not been disregarded in all parts of China as is that of other nations. The market for sundry Japanese goods has been very brisk in cotton, yarn, matches and similar articles. There is a steady increase of imports from Japan in toilet articles and stationery. Too much importance cannot be attached by our business men to the encouragement of the Japan-China trade, will, as a matter of course, involve no small amount of competition against

LABOR.

GET PROOF TO BACK ORCHARD.

State's Counsel Will Spring Sensation.

Work of Filling Panel to End Today.

Hawley Will Fire Opening Gun of Fight.

(BY THE ASSOCIATED PRESS—P.M.)

BOISE (Idaho) June 2.—Although drawn and pale as a result of the medicine and opiates administered to relieve him from the acute pain which he suffered yesterday morning, William Hawley, the attorney for the State, will be ready to open his case against the work of securing two more jurors to fill the panel which is to try him for the murder of former Gov. Steunenberg will be resumed tomorrow morning at 11 o'clock.

With a jury secured before court adjourns tomorrow night, the case for the State will be opened by James H. Hawley, leading counsel, on Tuesday morning. This, the first gun in the real engagement, will be lengthy, and it is expected that the trial will be delayed until the members of the union in anticipation of heavy demands on the funds.

Copies of the telegraphers' statement to the sheriff have been mailed to all districts of the Western Union today and will be made public tomorrow. The company is asked to concede an eight-hour day to all telegraphers, men on day shifts, and also fixed standard of wages and uniform working hours in all offices throughout the country.

LABOR BRIEFS.

New Labor Demands.

NEW YORK, June 2.—At a meeting today, which were represented nineteen branches of the striking longshoremen, under demands made a week ago on the steamship companies were revised and tomorrow the new demands will be submitted on a basis of 35 cents for day work and 50 cents for night work.

RAILROAD RECORD.

ELLIOTT PLANS TO OUST HILL

MELLON THROWS INFLUENCE TO AID OF SCHEME.

Railway World Heats That President of Northern Pacific, Backed by Morgan, Is Furthering Plot to Wrest Control from Pioneer Northwestern Transportation Chief.

(BY DIRECT WIRE TO THE TIMES) SEATTLE, June 2.—[Exclusive Dispatch.] High railroad officials have the story from New York that friends of President Howard Elliott have organized to wrest the control of the Northern Pacific and Burlington from J. Hill.

The most recent announcement that Hill had decided to replace Elliott as president of the Northern Pacific is said to be responsible for the organization. Elliott was taken from the Burlington at the suggestion of George Finkerton, who has figured largely in the work of securing this corroboration. It is concluded that the influence which has caused the State and especially the testimony of Orchard will be contested at every point. This will mean probably that the prosecution will not be able to conclude their three weeks of testimony in thirty days. The case for the defense will take equally as long.

TO TAKE SIXTY DAYS.

It may therefore be estimated that the case will last sixty days after the opening tomorrow if indeed a jury has been secured by that time. Sixteen days of actual work have been spent in the effort to secure a jury. Counting the adjournments the case has now been going one month. Nearly 200 telegrams have been examined, the maximum being 100 to a second defendant of the county who has not found an opinion. Fremont Wood, the presiding judge, is trying his first important murder trial.

One of the possible delays after the jury has been filled will be the induction on the part of the counsel on both sides to go very carefully over the record of the men who have so far qualified as possible witnesses. They have been at work on this and it is stated that after affidavits have been secured they may be used to show that the court should reopen the examination of two or three men now in the jury box on account of public expression of opinion at some time since the arrest of the prisoners.

ASK FOR BLUEJACKETS.

SHIPPING STRIKE IN FRANCE. (BY THE ASSOCIATED PRESS—P.M.) MARSEILLE (France) June 2.—Ship owners of Marseilles yesterday asked the prefect to supply bluejackets to replace the strikers. Sixty-four bluejackets were brought over from the island of Corsica. Twenty-eight of these men will man the lily, which leaves here for Biscay.

Vote for the Owens River Bonds. Assure the Prosperity of Los Angeles!

CONFIDENCE is the keynote of prosperity, the purveyor of happiness. Success, prosperity, and joy go hand in glove with confidence. Carry the bonds and maintain confidence!

Confidence bestowed on a newspaper makes for its success. The Times enjoys it at the hands of Los Angeles' enterprising citizens in larger measure than any other newspaper in the Southwest. Witness the evidence in the big volume of its paid-advertising, which aggregated for the month of May, 502 columns for the same period of 1906.

Like all Southern California, the Times is growing rapidly—growing in the confidence of its esteemed patrons, growing in the volume of its advertising business, growing in circulation, and growing in size. No newspaper in the world can claim superior standing in any of these respects, and few equal it.

to carry the mail. The shipping companies have been notified that other detachments would be placed at their disposal on request.

The Strike Committee of the Seamen's Union seems to desire to come to terms.

Tonight everything indicated the strike would start at 12 o'clock at a meeting of six hundred seamen here this afternoon it was voted to leave the full settlement of the strike to the committee, which is composed of the ship owners at all the ports, and invite them to send delegates to Paris in an effort to come to an understanding with the Minister of Marine. The committee believes that a prolonged strike should not be inflicted upon the country.

TELEGRAPHERS UNSETTLED.

WESTERN UNION PREPARING.

(BY DIRECT WIRE TO THE TIMES)

NEW YORK, June 2.—[Exclusive Dispatch.] Although officials of the Western Union Telegraph Company and of the Telegraphers' Union, which there are 20,000 members, insist that there will be no strike, there are indications that both sides are preparing for bitter struggle. Developments are expected tomorrow.

High officials of the company from outside points have been in this city conferring with President Robert C. Williams and General Manager Frank P. Tammey, who are in charge of the work of securing two more jurors to fill the panel which is to try him for the murder of former Gov. Steunenberg will be resumed tomorrow morning at 11 o'clock.

With a jury secured before court adjourns tomorrow night, the case for the State will be opened by James H. Hawley, leading counsel, on Tuesday morning. This, the first gun in the real engagement, will be lengthy, and it is expected that the position taken by the State of Idaho, in the effort to prove that Haywood, together with Moyer, Pettibone, Simpkins and Orchard, were responsible for the death of Frank Steunenberg on the night of December 30, 1905.

This opening address to the jury will be the first official outlining of the case, the intention being to prove. Ever since the arrest of the three men—Haywood, Moyer and Pettibone, specification has been ripe and innumerable statements, more or less well founded in fact, have been published. It is known, however, that the proof in the case against Haywood, the first of the prisoners charged with the murder to be placed upon trial.

STATE'S EVIDENCE STRONG.

It is believed that the State has in its service much corroborative evidence. Orchard will be witness, but counsel for the State do not propose to rely solely upon his evidence.

In the work of securing this corroborative, the Pinkerton Detective Agency has figured largely. It may be said that the best men of their force have been engaged on it for the last twelve months.

Capt. "Jim" McFarland, famous as the principal figure in many exciting stories of real life within the last twenty years, now in charge of the western division of the Pinkerton Agency, has directed the work. He now makes the statement that he believes he has completed it.

On the other hand the defense of Haywood has been as busily at work as the prosecution. Other scores of detectives have followed every lead and every hint of what that the Pinkerton agency was doing. A large amount of money—estimated to be as much as \$50,000—has been subscribed by the members of the Western Federation of Miners, an organization with 75,000 members, and by other labor organizations throughout the country. The propaganda in behalf of the prisoners—Haywood, Moyer and Pettibone—has been widespread and active and much interest has been shown in the anti-Hill movement.

E. F. Richardson, a prominent attorney of Denver, will open for the defense, but it is understood that it has been agreed that the defense will not be shown until after the case for the prosecution is all in. It may therefore, be several weeks before Richardson delivers his opening address. It is concluded that the interests of the defense, the State and especially the testimony of Orchard will be contested at every point. This will mean probably that the prosecution will not be able to conclude their three weeks of testimony in thirty days. The case for the defense will take equally as long.

TO TAKE SIXTY DAYS.

It may therefore be estimated that the case will last sixty days after the opening tomorrow if indeed a jury has been secured by that time. Sixteen days of actual work have been spent in the effort to secure a jury. Counting the adjournments the case has now been going one month. STATE'S EVIDENCE STRONG.

It is believed that the State has in its service much corroborative evidence. Orchard will be witness, but counsel for the State do not propose to rely solely upon his evidence.

In the work of securing this corroborative, the Pinkerton Detective Agency has figured largely. It may be said that the best men of their force have been engaged on it for the last twelve months.

Capt. "Jim" McFarland, famous as the principal figure in many exciting stories of real life within the last twenty years, now in charge of the western division of the Pinkerton Agency, has directed the work. He now makes the statement that he believes he has completed it.

On the other hand the defense of Haywood has been as busily at work as the prosecution. Other scores of detectives have followed every lead and every hint of what that the Pinkerton agency was doing. A large amount of money—estimated to be as much as \$50,000—has been subscribed by the members of the Western Federation of Miners, an organization with 75,000 members, and by other labor organizations throughout the country. The propaganda in behalf of the prisoners—Haywood, Moyer and Pettibone—has been widespread and active and much interest has been shown in the anti-Hill movement.

E. F. Richardson, a prominent attorney of Denver, will open for the defense, but it is understood that it has been agreed that the defense will not be shown until after the case for the prosecution is all in. It may therefore, be several weeks before Richardson delivers his opening address. It is concluded that the interests of the defense, the State and especially the testimony of Orchard will be contested at every point. This will mean probably that the prosecution will not be able to conclude their three weeks of testimony in thirty days. The case for the defense will take equally as long.

TO TAKE SIXTY DAYS.

It may therefore be estimated that the case will last sixty days after the opening tomorrow if indeed a jury has been secured by that time. Sixteen days of actual work have been spent in the effort to secure a jury. Counting the adjournments the case has now been going one month. Nearly 200 telegrams have been examined, the maximum being 100 to a second defendant of the county who has not found an opinion. Fremont Wood, the presiding judge, is trying his first important murder trial.

One of the possible delays after the jury has been filled will be the induction on the part of the counsel on both sides to go very carefully over the record of the men who have so far qualified as possible witnesses. They have been at work on this and it is stated that after affidavits have been secured they may be used to show that the court should reopen the examination of two or three men now in the jury box on account of public expression of opinion at some time since the arrest of the prisoners.

ASK FOR BLUEJACKETS.

SHIPPING STRIKE IN FRANCE.

(BY THE ASSOCIATED PRESS—P.M.) MARSEILLE (France) June 2.—Ship owners of Marseilles yesterday asked the prefect to supply bluejackets to replace the strikers. Sixty-four bluejackets were brought over from the island of Corsica. Twenty-eight of these men will man the lily, which leaves here for Biscay.

PACIFIC SLOPE.
NEW SCANDALS ARE PROMISED.

Graft Investigations Lead to Other Clews.

Burns Says He Will Produce Motives and Men.

Ruef Is Now Not Trusted by the Grand Jury.

BY DIRECT WIRE TO THE TIMES.

SAN FRANCISCO, June 2.—(Exclusive Dispatch.)—The day of serious graft revelations is not yet past, and that, in the near future, the public will be treated to some more finds of the much rake, is the prediction of those who are close to the grand prosecution.

William J. Burns has been investigating the relations between one of the senators and Mayor Schmitz, and as a result of these investigations new scandals are promised.

With these new developments in the great situation are brought to light, it is stated, the motives for the various efforts on the part of certain millionaire and other friendly influences to save the indicated witness will be obvious.

The wise ones in graft circles also see an indictment following the investigations of Burns.

There is great anxiety in prosecution circles over Abraham Ruef. It is said that the wily boss will turn traitor to the prosecution when it comes to the trials, and repudiate the many which he gave to the grand jury concerning his dealings with the various chiefs of the corporations of adulation.

It is declared, by those who are in the know, that he is carefully estimating whether to better himself by repudiating grand jury testimony and submitting to a conviction for perjury.

William J. Burns, however, is confident that the boss will vindicate his admissions of repentance and reform in the witness stand, in all the trials to come, by revealing even more startling things against the indicted millionaires who have told the grand jury.

LASH MAN TO RAILS OF ROAD.

HITCHMAN SAVES HIM BEFORE TRAIN PASSES.

Well-known Character of Water Fleet in San Francisco Says Protection of Gambling House Robbed and Then Tried to Conceal Silence of Crime.

BY DIRECT WIRE TO THE TIMES.

SAN FRANCISCO, June 2.—(Exclusive Dispatch.)—John Sullivan, known in the navy along the water front in San Francisco as "White Hat Fay," was strangled by the Tonopah local near the early yesterday is due to the fact that he was found by a switchee a few minutes before the train passed and released from the rails when he was placed by a gang of desperate characters after they had beaten and him.

Sullivan served six years in the San Francisco navy and is well known along the water front of San Francisco as being a well known few names for Marshall and Fowler, who owned a gambling house at Hines. Sullivan states that Marshall was one of the gang who robbed him of his money and then attempted to deal him a fatal death on the tracks. Several were exchanged in the encounter, none took effect. Sullivan about a year ago killed two men in San Francisco and was given a life sentence in a Pacific street saloon, but was exonerated because the killing was proven to have been in self-defense.

KILLS HIS FATHER.
MURDER PROTECTS HIS MOTHER.

BY DIRECT WIRE TO THE TIMES.

SEATTLE, June 2.—(Exclusive Dispatch.)—C. W. Morris, a twenty-year-old miner at Franklin, a Pacific Coast mining camp in this county, shot his father at 3:30 o'clock this morning to save his mother from abuse and assault.

The father had been out of the miners' room returning home this morning to abuse and then struck his wife. Young Morris, awoke, heard the noise and hurried into the room with a revolver.

He forced his father to cease his attack and started to leave the room, as young Morris's back was to the elder Morris is said to have made his attack on his wife. Then he went out and gave himself a deputy sheriff.

Sunday closing in the mining town miners have been buying liquor on Saturday for a Friday night and Sunday debauch.

FOR BEST FRUITS SHOWN.

PARADE OFFERS CUP AS PRIZE.

BY THE ASSOCIATED PRESS—P.M.

SACRAMENTO, June 2.—Former George C. Pardee has modified his control of the Fifteen-mile Irrigation Congress so that he will give a silver loving cup to be competed for in the interstate exposition irrigated land products, which will be held here simultaneously with the

Pardee was twice president of legislature congress, presiding at its thirteenth session held at Porterville, and re-elected to the presidency, will be offered for the best exhibit of fruits grown by irrigation.

SLOPE BRIEFS.

Monitored by His Brother.

JOSE, June 2.—Salvador San Jose, a well-known Italian farmer near Los Angeles, was found sleeping at about 12 o'clock by his brother, Felipe. The murder was result of a quarrel between the two brothers, San Jose was at work with when Felipe entered the house into which soon came to blows. While San Jose's wife was endeavoring to separate the combatants, Felipe fired three shots taking effect and one

WIL GOVERN THEMSELVES.
"Boy's City" to be Established in Indiana This Summer—Juvenile Court and Municipality.

BY DIRECT WIRE TO THE TIMES.

RICHMOND (Ind.), June 2.—[Exclusive Dispatch.] If there is a live topic among small boys of this section, it is of the "boys city" which is to be established at Winona Lake, Ind., this summer.

Judge Willis Brown of the Salt Lake City, Utah, juvenile court is to have charge of the make-believe municipality. The Winona boys city or camp is the newest enterprise to be undertaken by a summer assembly and the boys will be gathered together in it from Sunday schools, Y. M. C. A., and other organizations.

Judge Brown will have a number of assistants, who are well known in juvenile work, and at the head of each group of them will be an adult from their hometown town who will keep a watchful eye on them.

The boy's camp is to be open for three weeks, beginning July 26, and July 30, a municipal election will be held.

A boy mayor is to be elected, each camp will choose an alderman and these officers will organize a city government, make its laws, and see that they are enforced.

THE OIL INDUSTRY.

A HUNDRED AND FIFTY STRINGS.

THAT IS NUMBER IN OPERATION IN STATE'S FIELDS.

Los Angeles Becomes Headquarters for Oil Well Supply Trade of the Pacific Coast—Company Opens Branches in Three Fields That Are Coming Forward.

At Newport Bay.

The question is being asked almost daily, how is the well at Newport Bay getting on? There is nothing new learned but what The Times has already given in substance, viz., that there have been encounters with good light oil, have been encountered with a stratum of very heavy oil lying just above the last stratum of light product and below several other strata of light oil, it is causing all the present trouble, it is known. It has gotten into the casing and blocked the way to the lighter product below. It is causing delay in finishing.

SO GREAT HAS BECOME THE BUSINESS IN VARIOUS FIELDS THAT THE NATIONAL SUPPLY COMPANY HAS ADDED THREE STORES TO ITS CHAIN, AS FOLLOWS:

Sunset, Carl Baker, manager; McKittrick, Harry Hopkins, manager.

The McKittrick store was conducted for some time prior to the general decline in oil prices. It was closed. The other two are new.

The Luis Obispo depot is the very first establishment for the sale of oil well supplies in that county. Heretofore all these stores have been located at Bakersfield, Los Angeles, and Santa Barbara.

ALL ABOARD FOR OWENS RIVER.

*Iron Workers, Liberal Alliance,
German-Americans, Insurance Men,
Inyo Miner and Citizens at Large
Pledged to the Project.*

FRED L. BAKER, president of the Baker Iron Works, and member of the Water Board, who has just returned from Nevada, met Capt. Bishop, and with the citizens of the 55,000 acres of water-bearing land, while he was in Goldfield. Capt. Rickey was enthusiastic over the prospect of Los Angeles promptly building the aqueduct, and said it is now believed that the big work will be the making of Owens Valley. He said that Los Angeles could take three or four times as much water as is planned out of Owens Valley, and still there will be left much more than they will ever need.

"An example of the quick results in power development," said Mr. Baker, "is further proof of the correctness of Capt. Rickey's interest, which already has its plant above Bishop in full operation. This power from Owens Valley is to run the mills and mines in Tonopah and Goldfield, the electric current being transmitted over the mountains 125 miles by wire. This power plant is increasing its capacity constantly."

IRON WORKERS INTERESTED.
Chief Engineer William Mulholland won cheers from 200 iron workers at the Baker Iron Works on Buena Vista street Saturday with a noon-day talk on the aqueduct project.

At the close of his address, the workmen cast their "yes" vote, which resulted in 245 slips marked "yes," and fifteen marked "no" in bonds on June 12.

John Mulholland, president of a plain statement of the facts concerning the aqueduct project, elucidated with maps and charts. He was kept under a rapid fire of questions, and his answers won repeated bursts of applause.

The meeting was held in the new pattern shop, where a rostrum was erected.

Engineer Mulholland afterward declared that no such clear-cut questions had been propounded to him at any other public meeting as those of the iron workers, and commented that the bearers had read of the subject extensively, and taken a live interest in it.

OWENS VALLEY MAN'S VIEWS.

Thomas Pigott of Lone Pine, a mine assayer, who has been active in the Owens River valley for several years, was in the office of the Campaign Committee in the Chamber of Commerce Saturday afternoon, to congratulate the committee and the citizens of Los Angeles on the splendid work being done on the Owens River water to this city.

Mr. Pigott is engaged in mining in the White Mountain range on the east side of the valley. He said that the quality of the water in the Owens River is excellent, that he many friends of his have lived alongside the river and have always found the river itself for long time, and that it is as good as can be found anywhere, and to use his own words: "There are worlds of it."

"I consider the price at which the city of Los Angeles has procured its lands and water rights in the valley extremely reasonable," said Mr. Pigott. "In fact the price at which the commissioners selected live in most instances been the nominees of the city legislators. The commissioners selected are listed below:

FIRST WARD.

Councilman R. M. Dromgold and Carl Packard enlisted the following named as precinct committeemen for the First Ward: W. R. Myers; J. D. White; A. W. Clever; Fred Frank S. Forbes; Stanley S. Frenz; J. W. Arnold; David Martin; W. A. Frick; Alfred Moore.

FOURTH WARD.

John Mott enlisted the following named as precinct committeemen for the Fourth Ward: W. H. Clune; Precinct 1: Fred Strohman; Precinct 2: E. J. Fleming; Precinct 4: Frank A. Kelly; Precinct 42: S. P. Mulford; Precinct 43: F. N. Pauly; Precinct 44: Henderson; Precinct 45: M. G. Griffen; Precinct 46: Fred H. Hinsel; Precinct 47: G. G. Johnson; Precinct 50: John Ferguson; Precinct 51: William Ball; Precinct 52: M. N. Eskey; Precinct 53: Judge T. L. Lindquist; Precinct 54: K. C. Full; Precinct 55: A. O. Gephardt; Precinct 56: Mark Jones; Precinct 57: John H. Vonderwerth; Precinct 58: Ernest Werdin; Precinct 59.

EIGHTH WARD.

Councilman Bernard Hayle enlisted the following named as precinct committeemen to serve on election day in the Eighth Ward: David Gregg; William Ford; Precinct 129; N. J. O'Donnell; State Precinct 129; Peter Hotel; John Armentrout; Precinct 127; J. A. Ginter; C. W. Griswold; Precinct 128; William Sewright; Robert Gilker; Precinct 129; Anna Bartlett; Otto Baum; Precinct 130; John McMannis; Peter Lipp; Precinct 132; L. Carbon; John Faulkner; Precinct 133.

FRIENDS OF THE CAUSE.

Additional friends of the Owens River project, who visited the Campaign Committee headquarters at the Chamber of Commerce Saturday and made a photo to assist and work for the bonds are as follows:

Eugene Linthicum, 1441 East Forty-sixth street; David M. Storke, 917 Boswell street; George L. Miller, 2605 Main street; Richard Davall, 4880 Dominguez avenue; John Fisk, 423 Montezuma avenue; Joseph H. Hawley, 110 North Burlingame avenue; Ernest A. Miller, 1100 North Alameda; Z. S. Miller, 505 West Twenty-eighth street; T. P. Dyer, 415 Bixel street; William Wimberly, 1027 West Twenty-third street; G. Zoll, 1278 Reservoir street; E. Flomane, 6725 South Figueroa street; H. J. Morris, 1000 West Twenty-fifth street; John F. Simon, 619 Avenue 64; John A. Wood, 1007 East Washington street; Edward H. Bauer, 1222 East Fifteenth street; D. C. Gates, 2911 South Hope street; Arthur F.

Following are the resolutions:

Resolved, by the Liberal Alliance of Los Angeles, that the bringing of the water of the Owens River to Los Angeles is a continued growth and welfare of the city; that it believes water should be brought to Los Angeles.

That Los Angeles is most fortunate in having a man in charge of the work taken who has integrity, ability and civic loyalty after question:

That the all-around interests and conditions any and all opposition or hindrance to the comprehensive plan promulgated by the entire campaign committee, and that the proofs of the plan to sell the bonds as funds are needed.

That whereas, it is of the utmost importance that the bond election be carried by an overwhelming majority, the people of the Owens River valley, who regard the growth of the Liberal Alliance of Los Angeles pledges and supports the efforts of all its members in support and help efforts of all its members.

There will be a mass meeting of the Liberal Alliance at the South Main street on Saturday, June 8, at 8 o'clock p.m., where the Hon. Mayor A. C. Harper also William Mulholland, George Williams and other eminent speakers will discuss the subject of the Owens River water question.

HUMAN WEDGE SAVES LIVES.

Laborer in Oil Fields Throws
Himself Before Rolling
Cask and Dies.

"Greater love hath no man shown than this, that a man lay down his life for his friends."

This morning the bruised and broken body of plain Charles Lawson, hero, Salvation Army worker, and toiler in the oil fields, lies at rest in a humble grave, but his name is on the roll of everlasting honor, and his memory will be green as long as gratitude shall live.

Nobody had picked him for a hero. The story of his tragic passing is superbly simple. Ever since his conversion he had been a steady worker in the oil fields, and a few days ago, when a giant cask of asphaltum was being moved, Lawson was assisting some other workmen. The great barrel became uncontrollable—a demon of motion. With fiendish ferocity it lumbered directly toward a ditch, where several unsuspecting laborers were tolling. A dozen men closed their eyes in horror. Lawson did not close his. He opened them wider, and leaped forward. Sickened, his comrades turned away. There was a crunch, a smothered groan—and Lawson's life work was over. His body, horribly mashed, was the wedge which turned the great cask from the ditch.

WATER TASTED GOOD.
COLEBROOK (Col.) May 31, 1907.
Editor: I spent five days in Owens Valley and about Bishop. Two other men and myself went out for water. We took the Owens River water to drink. I distinctly recall the favorable taste of the water, sparkling and pure it looked. There certainly was no salt in it and the vegetation seemed to grow well. At that time there seemed to be no water in the river, but there must have been tides to flood the entire region of Southern California. Those who question Owens Valley either misrepresent the facts or are ignorant of them.

CITIZENS PLEDGED.

The following pledge has been received by the Campaign Committee:

THE LIBERAL ALLIANCE (Cal.) June 1, 1907.
We, the undersigned, all of the officers and directors of the Oriental Life Insurance Company of Los Angeles, hereby pledge ourselves to work and work for the water bonds, and heartily endorse the city of Los Angeles and its citizens that they should be carried.

CAMPAGNA WORK.

The Westlake Garage, 660 Alvarado street, has notified the Campaign Committee that on election day it will make necessary repairs free of charge to the main lines in the service of carrying voters.

The white pennants bearing the legend: "Owens River—Vote for It June 12," have begun appearing all over the city.

The "precinct commanders" have been appointed yearly for each of the city wards, the First, Fourth and Eighth.

The Councilman in each ward has been selected by the committee.

All political parties will be represented among the "precinct captains" who will have direct personal charge of the volunteers engaged in bringing the vote on election day.

FOR LOVE OF
NATIVE LAND.Italian Dine and Listen to
Ringing Speeches.Commemorate Anniversary of
Constitution.Grand Ball Increases Funds
for Relief Work.

In commemoration of the anniversary of the Italian constitution, 200 representative men of the local Italian colony assembled around the festive hall at the Hotel Garibaldi on South street yesterday afternoon at Garibaldi Hall. The interior of the hall was beautifully decorated in the American and Italian colors, and with floral designs. In work of Messrs Zucco and Cattaneo, the long tables were loaded with choice viands and adorned with flowers strewn on the cloth.

The flagstaff floated the national colors and on the coat lapel of each man was the combined emblem of the native land and the land of adoption.

Dr. R. Sartori was the toastmaster. There were short addresses by Acting Consul F. Bessello of the Italian Red Cross Committee; Mr. Cattaneo and B. Marchese, Italian consul, each full of compliment for another country but their own. The Italian colony there now live, Charles Martini, spoke on "The Constitution," and was frequently interrupted by enthusiastic cheering. He said in part:

"The First could no longer remain the persistence of his countrymen in the affliction of Italy and abroad and a regency was established.

Alberto assumed the reigns of government under Carlo Felice, the dictator returned from Modena, after he died in 1831, having reigned years, and his loss was not felt by the people of Italy.

Carlo Alberto to the throne

March 1848, the people of Milan rose and after five days fighting compelled the enemy to retreat. Alberto moved the war to Austria with 25,000 men, he took the tri-color and commenced the independence.

After the victory of Gen. Radetzky, the King was compelled to retreat and raised the flag of truce over the city. Carlo Alberto, his colonel, was still attached to the King and after the great battle of Navarre, the King began to himself with the intention of death on the battlefield.

The King called his officers consultation and explained to them his condition of affairs. He

had eighteen years I have done all power for the good of my country. I regret to confess to disappearance. I am not sorry for myself, my country. I tried to die on the field of battle.

He received my crown to my son, Maxil, with the hope that he would be able to obtain better terms of peace. He is your King.

He died in 1849, he died for Portugal only one attendant. He died four months afterwards of heart disease.

Garibaldi entered the political career of Young Italy, to become a Massoni and many notable politicians.

Cavour, Minister of Commerce Victor Manuel the Second, the hope of the alliance of Italy with France and Victor Manuel the second who was always true to his friends worked together and in 1859 became the first Minister of Sardinia.

APOLONIO INTERESTED.

During the Crimean War, the government offered to England 15,000 men to fight against Russia. This was Cavour to gain the friendship of France, thereby securing an alliance to aid in the freedom of Italy.

Garibaldi was undressed at the hospital, the attendants were amazed at the number of the Sardinian Home at San Stefano. Hardy, veteran of the Civil War, was the old sailor's companion there, and together they came to Los Angeles a week ago, and rented a room on San Pedro street.

Saturday morning according to Hardy's story, Gavin became despondent and threatened to end his life.

The old soldier had laughed at the threat, and when Gavin the man who had faced the horrors of Manila ought not to be troubled by a disease of the nerves.

He then left Gavin and the latter, after enduring over his trouble for some time, sliced his wrist. His involuntary cry of pain as the knife tore the artery attracted the attention of the proprietor of the place and he called the patrolman, who was passing through.

Despite the fact that Gavin begged to be allowed to die and repeated over and over again that he had slashed himself, Hardy was arrested because he had possession of a knife that belonged to Garibaldi.

When Gavin was undressed at the hospital, the attendants were amazed at the marvelous patterns traced in tattoo on the sailor's breast and arms.

On his breast the "Crucifixion" and his tattoo in these colors. The figure of the Savior rose and fell as the stricken sailor breathed.

Just below a fine specimen of an American flag Gavin had slashed with his knife, and the tip of the flag swept the wound.

Francisco who flocked here after the disaster. It is estimated by Consul B. Castruccio that there are at present more than 200 of the San Francisco refugees in Los Angeles. Many have settled here and the northern city by the committee to the relief of the sufferers from the eruption of Vesuvius.

It is the hope of the Italian colony to swell the relief funds to such proportions that a hospital may be established within the ensuing year.

FACES SHELLS.
SHIRKS DISEASE.HERO OF MANILA BAY SLASHES
ARTERY TO DIE.

Surgeons Save Him Despite His
Prayers and Struggles—Medals for
Bravery Found in His Pockets—Re-
cently an Intimate of Soldiers' Home.
Artistically Tattooed.

"Let me die. I had a good start, and it's no use trying to save me when I don't want to live."

With his left wrist slashed and bleeding, and his face distorted with pain, Philip Gavin, a hero of the battle of Manila harbor, fought the police surgeons Saturday afternoon while they worked over him in an attempt to save his life. He begged to be allowed to die.

Gavin was found by Patrolman Gilpin, shortly afternoons in a San Pedro restaurant, looking like a knife slash across the left wrist showed how the man had attempted to kill himself.

The artery had been cut as neatly as it was done by a surgeon. Gilpin put a bandage on the wound, and saved the old man.

Patrick Hardy, who had been with Gavin during the day, was arrested after learning that the man had been taken to the station. He is being held on suspicion until an investigation of some of the minor facts in the case can be made.

Gavin says that he has been troubled with a disease of the heart for years past, and that life was not worth living.

When he was searched, medals for bravery at the battle of Manila were found in his pockets. One of the medals showed that he had been on the U.S.S. Boston during the fight in the harbor. Another medal showed that he had received honorable mention for gallantry in action in 1866.

He enlisted again as soon as war with Spain seemed inevitable.

For several years past Gavin has been an inmate of the Soldiers' Home at San Stefano. Hardy, veteran of the Civil War, was the old sailor's companion there, and together they came to Los Angeles a week ago, and rented a room on San Pedro street.

Saturday morning according to Hardy's story, Gavin became despondent and threatened to end his life.

The old soldier had laughed at the threat, and when Gavin the man who had faced the horrors of Manila ought not to be troubled by a disease of the nerves.

He then left Gavin and the latter, after enduring over his trouble for some time, sliced his wrist. His involuntary cry of pain as the knife tore the artery attracted the attention of the proprietor of the place and he called the patrolman, who was passing through.

Despite the fact that Gavin begged to be allowed to die and repeated over and over again that he had slashed himself, Hardy was arrested because he had possession of a knife that belonged to Garibaldi.

When Gavin was undressed at the hospital, the attendants were amazed at the marvelous patterns traced in tattoo on the sailor's breast and arms.

On his breast the "Crucifixion" and his tattoo in these colors. The figure of the Savior rose and fell as the stricken sailor breathed.

Just below a fine specimen of an American flag Gavin had sliced with his knife, and the tip of the flag swept the wound.

CHILDREN SHOWED IT.

Effect of Their Warm Drink in the Morning.

"A year ago I was a weak from coffee drinking and was on the point of giving up my position in the school room because of nervousness.

"I was telling a friend about it and she said, 'We drink nothing at meal time but Postum Food Coffee, and it is such a comfort to have something we can enjoy drinking with the children.'

"I was astonished that she would allow the children to drink any kind of coffee, but she said, Postum Food Coffee, was the most healthful drink in the world for children, as well as for other ones, and that the condition of both the children and adults showed that to be the case.

"My first trial was a failure. The cook boiled it four or five minutes and it tasted so flat that I was in despair but determined to give it one more trial. This time we followed the directions and boiled it fifteen minutes after the boiling began. It was a decided success and I was completely won over by its rich delicious flavor. In a short time noticed decided improvement in my condition and kept growing better and better month after month, until now I am perfectly healthy, and do my work in the school room with ease and pleasure. I would not return to the nerve-destroying regular coffee for any money."

"There's a Reason." Read the famous little "Health Classic." "The Road to Wellville," in pigs.

219-29
South BroadwayAnnual June
Sale of Undermuslins224-28
South Hill StreetPurchase Enough Now to Last Through the Entire Summer.
for It Is Very Unlikely That Prices on Women's Underclothes
Will Be As Low Again Before Our Next Sale.

Lucky for us, lucky for you, that we made preparations for this Annual June Sale months ago, when we foresaw the rise of cotton—and increased cost of white goods. We ordered lavishly, then and there, so further advances haven't worried us, nor forced us to add anything to our usual prices, nor to give short measure in any of the garments. They're all been made in factories where the workers are well paid, and where sanitary conditions are all that they ought to be. Every garment is new and perfect, there are no seconds or job lots.

Get at the real goodness of this sale by proving values offered at the following prices:

Drawers. Corset Covers. Night Gowns. Skirts and Chemises

Amples sizes, satisfying muslins, nainsooks and cambrics, trimmed with lace, beading, ribbon and delicate, yet durable embroideries, gowns in slip-over, round neck, chemise and square neck styles, variously trimmed. Prices run about as follows:

Fine, dainty corset covers, for as little as 25c; splendid gowns in a variety of styles, at 75c; skirts beautifully trimmed, 75c; drawers at 25c, and so on until

\$150,000

PRICE INCLUDES CROP NOW ON VINES. NOW WORTH \$300,000.

This magnificent property is situated at miles northwest of Fresno, near the beautiful Kearny Estate, in the heart of the world's best fruit district. The La Favorita Vineyard has 100 acres of fine vines, 100 acres of fine Muscat raisin grapes and 100 acres of alfalfa. The place is highly improved in every way. Many fine buildings, tools, 2000 bushel boxes, about 50,000 trays, packing houses, barns, outbuildings, together with fine residence, etc., are included.

The La Favorita is one of the show places of Fresno county, and as a house it is no equal.

At the price, \$300,000, it is a splendid buy.

Satisfactory terms can be arranged.

Come to Fresno and have a look at this fine property.

Write us.

THE CITY IN BRIEF

BREVITIES.

His Arm Fractured.

John Porter, a janitor employed at the City Hall, sustained a fracture of the left arm yesterday morning in an accidental fall at First and Alameda streets. The fracture was reduced at the Receiving Hospital.

Car Strikes Auto.

Mrs. Simon Maier is suffering at her home, No. 117 South Grand avenue, from injuries received in an automobile-street car collision Thursday. The touring car, owned by Mr. Maier, was said to have been driven by Mrs. Maier, across the intersection of Tenth and Olive streets when it was struck by a University car. Mrs. Maier was the only occupant of the auto injured.

Grass Fire Threatens.

What threatened to be a disastrous brush fire started yesterday in the Arroyo Seco at Avenue 57. The flames swept through the dry grass and twigs in the arroyo bottom and then over the hills, burning over several acres. Engine Company No. 1 and Hose Company No. 11, after a heroic fight, got the fire under control. At one time it was feared that the flames would climb the west bank of the arroyo and reach residences on Pasadena Avenue North.

Taken North for Burial.

Former Judge Thomas Carroll and daughter departed light for Tacoma, accompanying the remains of Mrs. Carroll, who died suddenly Saturday at the family home near Rivers. Mrs. Carroll was aged 63 years, and with her dying husband had resided in Southern California for five years. No funeral service was held here, that being deferred until the party reaches Tacoma, where for years Judge Carroll was on the bench.

Neither Post Nor Thief.

William Schneider of No. 861 Buena Vista street was removed from his lodgings by the police last night, at the request of the proprietor of the place. Schneider has been employed by the Western Gas Engine Company, but has the hallucination that he is a postman by name and that he has taken to Central Station, said he had stolen jewelry from a department store. He will be detained in the Receiving Hospital.

Pastor Favors Books.

Rev. Clifford Nott Hand, pastor of Trinity Congregational Church, yesterday morning called on Congressmen to "work and vote for the Owens River bonds." The pastor, in a short address before the communion service, impressed upon his hearers the importance of the bill, which had been introduced by the citizens of Los Angeles on June 12. He declared the bringing of the Owens River water to Los Angeles will be one of the longest strides in the march of the city's progress.

Dr. Bright Specializes.

Dr. J. Bulgin, whose spectacular career in various Southern California towns will be recalled, is seriously ill in a hospital at Oakland. Rev. Alfred Inwood, pastor of the Boyle Heights Methodist Church, yesterday received a telegram from Dr. Bulgin, who was traveling with Bulgin, announcing the evangelist's nervous collapse and the loss of his voice. Bulgin had just closed a remarkable meeting at San Jose and was to have begun a series of meetings yesterday in the Oakland churches.

NEWS AND BUSINESS.

J. W. Frey has moved his stock of mantles, grates, tiles and andirons to his warerooms, corner of Los Angeles and Twelfth streets, where can be seen the largest assortment of black and brass fireplace trimmings to be found in the United States.

Elie Havill wished his many patrons to know that from now on reduced prices will prevail, one-quarter off on all trimmed hats and trimmings. Suburban Millinery Store, 2305 S. Union.

Fura, D. Bonoff, furrier, 215 S. Broadway. Idyllwild opens June 15—prepare.

FIVE CHILDREN BURN.

Motherless Little Ones Suffer from Gasoline Explosion—Kept House While Their Father Worked.

[BY DIRECT WIRE TO THE TIMES.] HAMMOND (Ind.) June 2—[Exclusive Dispatch.] A tragedy was enacted at the home of Elmer Wagner today, when his five little children were burned in a gasoline explosion.

Bertha, aged 11, the eldest of the little folk, was burned to death, while she was trying to save her brothers and sisters. Lillian, aged 5, and Oswald, aged 4, are fatally burned; Redymond, aged 7, and Grace, a baby, will recover.

The mother of the children died a few months ago, and the father and the little ones have been getting along as best they could.

Bertha, the oldest girl installed herself as "mother" to the others, doing the cooking, keeping house, mending and caring for the youngsters. The father's work requires that he should leave home at 5 o'clock in the morning, and prepare his own breakfast.

The children awoke later and while Bertha was getting breakfast the gasoline stove exploded, throwing the burning fluid over the children.

SEARCHLIGHT REALTY ACTIVE.

Searchlight lots aggregating fifteen separate parcels of land are reported as having been sold during the past week to Los Angeles and nearby towns by the H. H. Corliss Company for \$4500. Much of the property is said, followed, as a result of the letting of a contract by Dr. Samuel A. Ellis of Azusa for a \$10,000 cement block plant on lots on the corner of Main and Wall streets. H. Merriam of Los Angeles secured the contract. The figures on cement blocks were cheaper than for a frame building. The Ellis building will be when completed, the finest structure in Searchlight. The owner already has leased the upper floor to the Masonic Lodge of Searchlight at \$100 per month for a period of five years. The lower floor will be occupied by two Los Angeles carpenters will do all of the mechanical work on the Ellis building, and the establishment of a cement block plant to make the material for the building, permanent or permanent block industry for the Nevada.

Mary (McMinn) has purchased a lot in block 19, and will erect a large lodging house. Henry H. Hobson has bought a lot in the Oregon addition and will establish a dairy ranch in Pacific Valley, about two miles from town.

Mrs. H. Williams has purchased two lots in the East End addition for a poultry ranch.

STOCKTON'S SIDE TRIPS.

A delightful trip was taken by the members of the Stockton party Saturday to Pomona, Riverside and Redlands, via the Southern and Western Pacific road. Luncheon was served at the Glenwood Tavern, and a ride up Magnolia avenue was taken by some

of the party. At Redlands automobiles took the visitors to Smiley Heights. Today about seventy-five will go to Catalina.

NO POLITICS IN THIS ASSEMBLY.

PUBLIC LANDS CONVENTION IS HONESTLY INDEPENDENT.

Object is to Open to Tillers of the Soil Property Now Owned by the National Government—Stock Growers Want a Square Deal—Government Control Favored.

[BY THE ASSOCIATED PRESS—P.M.] DENVER, June 2—Gov. Buchtel, who issued a call in accordance with the resolutions adopted by the general assembly of Colorado for the public lands convention, to be held in Denver, July 18, 19, and 20, declared today that there shall be no politics injected into the gathering if he can prevent it.

When he sent out the call he distinctly and emphatically stated that the purpose of the convention was in no way to antagonize the President and his administration, with reference to the public land question.

The programme prepared for the convention by a committee of which Gov. Buchtel is chairman provides for the shaping of a more liberal policy to be submitted to Congress for the enactment of laws which will make for the development of the western States by bringing more power to them to take up lands and till them.

The American National Stock Growers Association, which convened in Denver yesterday, and continues in session, provides for the submission of a factor in the coming convention, and Secretary T. W. Tomlinson of the association has been making a letter of the members on the questions to come before the convention.

Some of the questions he put to them were:

"Do you favor some form of government control of public grazing lands under regulations that will fit the conditions for your district?"

"What arrangements will be best suited to your section, an absolute lease of the fencing rights, or a permit to run live stock on the public lands with proper protection?"

Most of the members favored the government leasing system with fencing privileges.

They want leasing permits from the government. Ninety per cent of the government control will give the little as well as the big stock growers a square deal. So far, however, have been the reports that the stock growers' association is now

to be fully enlisted in the campaign of the President's cause.

YALE MAN KILLS HIMSELF.

Desire to Be Popular With Students Leads to Speculation and Resultant Forgery.

[BY DIRECT WIRE TO THE TIMES.] TOPSFIELD, Maine, June 2—[Exclusive Dispatch.] Arrested on a charge of forgery, by officials of a Salem bank, James S. Garvin, a graduate of the Yale class of 1902, who had his name legally changed to E. Davis Brooks, and who was principal of the High School here, killed himself by taking cyanide of potassium.

The young man was the adopted son of E. B. Knowles, a wealthy and prominent citizen of Salem. Garvin was 25 years old and of attractive appearance. His weakness appears to have been excessive desire to be popular with the schoolboys in his charge.

To raise money to entertain these boys he speculated in the stock market with loss. Following his death it has become known that he forged notes with the names of at least five prominent citizens of the town.

HATS—Tan o' Shanters and sailors in straw, linen and pique, ensign and emblem trimmed to match suits; priced at \$50, \$30 and \$15 up.

SIEGEL'S—WOMEN'S CHILDREN'S WEAR.

Myer Siegel & Co., 251-255 South Broadway.

WE'RE OPEN

Los Angeles Daily Times

**Overstocked**

Every piano manufacturer produces from six to ten different styles—and each style is made in three or four different woods. When a house like ours handles from eight to ten different makes and carries all styles and woods of each make, it means an enormous stock of 350 pianos. We are, therefore, overstocked, and have selected from our lines 75 pianos of various makes, which we are going to close out at a quarter off regular prices. We must reduce the number of pianos we carry—we must get rid of many of the styles. The pianos in this sale will not be replaced, so you must take advantage of this "quarter off" sale at once—or your opportunity will be gone.

**All New Pianos**

Every piano in this sale is absolutely new—not one shop worn—none from our rental stock—no second-hand instruments of any description. Only new, clean pianos—some still in our warehouse in boxes—several carloads having just arrived. No piano players or interior players are offered in this sale. Only the makes mentioned above will be sold at a quarter off.

**Pianos Reduced to \$168.75**

225 Pianos Reduced to	\$168.75
300 Pianos Reduced to	\$225.00
400 Pianos Reduced to	\$300.00
450 Pianos Reduced to	\$337.50
500 Pianos Reduced to	\$450.00

Easy Terms

Owing to the unusual prices made, we can not accept time payments of less than \$10.00 a month. The first payment must be \$25.00 or more. Remember, 75 pianos at a quarter off regular prices, selected from these makes: Sohmer, Kranich & Bach, Emerson, Sterling, Estey, Mendelsohn. Now is your piano opportunity—don't ignore it. Sale commences this morning at store opening time.

LABYRINTH OF VICE EXPOSED.**X-Ray Turned on Vitals of Chinatown.****Revolting Facts Reported by Pharmacy Board.****Nauseating Opium Dens Will Be Exterminated.**

was purchased by Whildren and his deputies at the establishment of Kung Yee, No. 312 Apalaha street, and corroborative evidence against this hop vendor is very strong and, it is believed, will prove convincing. Further west on Apalaha street is a den known as "The Blue Front." The Chinaman who runs it would not allow the board men to penetrate the mysterious rear of the shop and would not deliver them opium in his store.

"You wait outside," I bing 'em to you," whispered the Chinaman, and his stony eyes narrowed to gleams of black cunning. A moment later the chink stepped to the door, grabbed the money, dropped the little folded playing card, and then stretched a hand and then slammed the door. A John Doe warrant will be issued for the arrest of this Chinaman.

FIEND'S CUNNING.

Yen Sun keeps a store next to the big Joss house on "Nigger Alley." He also sold opium without question, it is said, and will be dragged into court. While absolute evidence was obtained in this case, instances where there were many failures at shops where it is known that opium is daily purchased by hop heads. One of these pitiful degenerates was intercepted as he stepped from a store on Alameda street. Like a fiend he leaped upon the hand of a Chinaman. The hand of the fiend was empty and the Chinaman had disappeared as by magic.

Members of the State Board of Pharmacy are of the opinion that the police should call in the services of the Chinese to help in the fight against the opium dens. From my knowledge of the enormous traffic in opium that is being carried on in violation of the law.

ENORMOUS DRUG PROFITS.

Greedy is pointed out as the greatest enemy against the struggle to stamp out the inhuman use of narcotics. True, the "fiend" craves his drug and will even steal for it, as demonstrated by the case of a young boy who is now on the road to the penitentiary; but the merchant is really the guilty one. Cocaine is quoted in the latest reports at \$2.75 an ounce, the ounce containing 30 grains. The druggists of the city who violate the law by selling cocaine without a prescription, give 20 grains of cocaine for 50 cents—selling the ounce that cost them \$2.75 for \$12. Morphine is sold at the same enormous profit. A tin of opium costing \$6.50, dispensed in small lots, sells for \$30. One place in San Francisco that was destroyed by fire is known to have made a profit of \$1500 a month from the sale of opium.

G. Kaukeff, whose place of business is No. 21 Allis street and who last week paid a fine of \$100 for selling morphine without a prescription, stated to a representative of the State Board of Pharmacy that it is not allowed to sell "dope," he will have to close his doors. In the sale of opiates the bulk of his business and his greatest profits.

On Tuesday evening a negro, known as Sam Ramsey, a confessed "dope fiend," was followed by Charles Whildren and three deputies. The negro entered the store of G. Kaukeff and asked for morphine for himself and "a friend." The clerk, E. D. Cheneaux, passed out the drug in a white paper, unlabeled and with no marks of identification. He admitted the sale. In pronouncing sentence, Justice Austin warned the defendant that if he was convicted again he would be imposed without option of a fine.

EARNEST FOR REFORM.

Whildren has worked diligently during the three weeks he has been investigating pharmacy conditions in this city. He has secured ten convictions, the fines totaling \$415, and has not lost a case. He will swear to five warrants today and says that he has a number of other cases "up his sleeve." A detective was appointed, who will be permanently located in this city, and the district will be carefully watched.

"This is no spasm of activity on the part of the board," he said yesterday. "The board has taken up a hard fight against the small army of violators of the pharmacy laws, and is in the fight to win. We notice a good deal of activity. Druggists are now more careful about their conduct themselves on the law, but there is still much to be done. When we can successfully check the dope evil, we are going after the men who pass off as physicians for general articles. This practice has been going on until some departments of the drug business have become ludicrous fakes."

H. L. Scherf, of the Arcane drug store at No. 846 East Fifth street, has been indicted for violating the pharmacy laws and was granted a jury trial. The case will prove extremely interesting and will be called at 10 o'clock Friday. Whildren will take the stand to prove that they witnessed the sale of opium to "dope fiend" and took the evidence from the purchaser. Scherf's defense will be that the "fiend" had the "dope" already in his possession upon entering the store and tried to sell it to the esthetician.

HALF-NAKED MEN ON BUNKS.

"Do these women always continue their ways?" asked Whildren of his three deputies. Tuesday night, entered an opium den at the establishment of Yee Kee, No. 313 Marchesa street, and saw eleven men lying on bunks. Some were smoking opium others had passed out. The bunk of staves, which is the lust of the fiend. My deputies bought opium and I witnessed a violation of a law that is far too lenient in its punishment."

"Do these women always continue their ways?" asked Whildren of his three deputies. Tuesday night, entered an opium den at the establishment of Yee Kee, No. 313 Marchesa street, and saw eleven men lying on bunks. Some were smoking opium others had passed out. The bunk of staves, which is the lust of the fiend. My deputies bought opium and I witnessed a violation of a law that is far too lenient in its punishment."

CAUGHT IN THE ACT.

Frank T. Rimpaun will be obliged to answer in the Police Court probably today, on a charge of illegally selling the opium, the case against him being the result of a sale which was witnessed last evening by Secretary Whildren accompanied by two detectives. For some time there has been more than a suspicion that certain known "dope fiends" were securing their drugs at the Rimpaun pharmacy and last night Whildren and his men, who had been following him, found him in his room and he wanted to buy drugs. Whildren gave him a marked coin and watched him enter Rimpaun's place and purchase 50 cents worth of cocaine. With a light matting stained with the filth of countless bodies that have turned and sweated there. Are those bunks ever allowed to cool? Not one was empty. An ill-tempered lamp and flickering tapers smudged the incense-laden atmosphere.

"Yee Kee, himself, sold us the opium. He took a bag and fingered it, then a shelf and a little wooden paddle daubed the opium on a dirty playing card, that had been shuffled and smeared with dirty fingers until dissolved. He weighed the opium on a pocket balance and weighed one end of a beam. The beam scale he held in one hand by a cord and with the other hand he moved outward a metal disk that rides the beam until he had the right weight. It was sufficient to smoke a beginner into deathly illness, or a fiend into stupification. The card was neatly folded lengthways and the ends were tucked under the beam. The hideous mixture that looks like liquorice was increased and held by its own stickiness. On the back of the card was stamped in red ink, 'Yee Kee, 313 Marchesa street, Poisen.'

PLenty OF EVIDENCE.

"This was the second time we had been in Yee Kee's, though originally and to have a clear case against him. If judgment is brought against him, a paltry fine of \$100 will do little to stay out of prison for 100 days without option of a fine. A cyclone of indignation should be waged against Chinatown that would expose the foundation of this evil."

According to the automobile register, the machine is the property of William Mackie, but Mr. Mackie says that his machine was not out last night.

On three different occasions opium

MUST FIGHT WITH WOMEN.**Venice Matrons Will Resist City Marshal.****Trustees' Resolutions Cause Great Commotion.****Exciting Struggle Over New Bath-house.**

replied: "Do you know, I believe there is no money to be made right here in Southern California by the man who studies the question carefully and, after securing select spawn, goes into the raising of mushrooms for the Los Angeles market."

"You know how can you blow up the walls without killing the women and children?" interrupted the interrogating scribe.

"Everybody likes mushrooms and is always willing to pay the top price for an article that is genuine."

It was impossible to secure any expression of opinion from the marshal.

TRoubles Multiply.

A second resolution adopted by the trustees and the matrons was directed against the same two city officials. That resolution provides that, while a permit was heretofore given by the board to Abbot Kinney to maintain a spur track running from the intersection of Trolleyway with Lorelel avenue in a westward direction, the Venice Avenue pier, the clerk must notify Abbot Kinney to at once remove said spur track from said Lorelel avenue.

"And it is further resolved, continuing the resolution of the trustees and Abbot Kinney Company, a corporation, and Street Superintendent George Culver of that city are scheduled for one of the most strenuous weeks they have experienced in their official capacity. There is a fight on at Venice, and the Street Superintendent of the city of Ocean Park is hereby instructed and directed to remove the said spur track from said Lorelel avenue."

"And it is further resolved, continuing the resolution of the trustees and Abbot Kinney Company, a corporation, and Street Superintendent Culver of the city of Ocean Park are hereby instructed and directed to remove the said spur track from said Lorelel avenue."

RUMORS RAISE LAND VALUES.

Gould Line May Enter City
Via Inglewood.

Sleepy Old Town Anticipates
an Awakening.

Western Pacific Officials In-
vestigating.

Persistent rumors that the Western Pacific road—the Gould line—will enter this city by way of Inglewood have been partially verified by events of the past few days. It is asserted on good authority that several railroad officials who were associated with Gould officials have been spending several days in the vicinity of Inglewood. The officials went over the old Santa Fe right of way, which runs from Santa Monica to Inglewood, and made numerous inquiries regarding lands abutting upon the right of way.

It is also stated that an offer was made a few days ago for a tract of land lying between the Santa Fe line to Redondo and the old Santa Monica branch. The owners of the property paid about \$4000 for the land. The offer was said to be over \$10,000. Residents of the sleepy old town believe that it will see another awakening, and prices are going up on acreage near the right of way.

The remarkable activity in railroad building in the southern ranch started rumors some time ago. A railroad beginning at no important point and leading, apparently, nowhere in particular, naturally excited interest. The road has been under process of construction as far as the Southern Pacific wharf at Port Los Angeles.

LOOKS LIKE EXTENSION.

The assertion that building will begin on this side of the wharf leads experienced railroad men to conjecture that it means a further extension.

From Santa Monica the old Santa Fe road to Inglewood has been made an electric line, and the Los Angeles Pacific has run a day and night on the two points, holding the line under lease from the Santa Fe. No passengers are carried and very little freight. It is believed that the Gould interests will acquire the road from the Santa Fe and run it from Inglewood over the Santa Fe tracks.

Several men who own large acreage near Inglewood are said to have "inside" information on the projected railroad and have raised the price on all of their land.

A railroad man said yesterday: "This route via Inglewood is the best and most practical means of entering Los Angeles, especially in the face of the inevitable opposition from the Southern Pacific. If the same principles can be made with the Santa Fe people, it will be easy for the Gould interests to reach Los Angeles. The Malibu line was not constructed for pleasure. I am confident that it will form a part of the coast line of the Western Pacific from San Francisco to Los Angeles."

"Only a short strip will be needed between the northerly extension and the old Santa Fe right of way in order to place the road in the city. This is my judgment and I think subsequent moves will bear me out."

PLEASED BY PROSPECT.

The property owners of Inglewood are naturally much in favor of the Western Pacific road and all of them express themselves as willing to aid in the project as far as their power lies. It will mean boom for the little town, which will vote on incorporation next Thursday.

While much of the talk regarding the route to be taken by the Western Pacific in its march upon this city, is conjecture, the Inglewood right of way presents at the present time the most feasible entrance into Los Angeles, say experienced engineers and railroad men.

Just what overtures have been made as yet, but unless some serious difficulties are encountered, it seems probable that the Gould interests, within a few years, will be running trains into Los Angeles via Santa Monica and Inglewood.

WEDDED AT SAN PIETRO'S.

Italian Colony Interested in Marriage
of Two of Its Popular Young
People.

An event of interest in the Italian colony occurred yesterday—the wedding of two of its popular young people. At 5:30 o'clock in the quaint little Church of San Pietro on San Fernando street, Padre Pucinelli married Antonio Busciano and Miss Mary Spadafora, daughter of Mr. and Mrs. J. Spadafora, of No. 330 College street.

The bride's costume was white lace over satin, with ribbon insertion, made demi-traine, and her veil was caught up with snowy blossoms. The bridesmaid was Miss Totoe De Nubila, and the maid of honor, Miss Anna De Nubila, both cousins of the bride. The groom was attended by Frank De Nubila and Vincent Manicelli.

After the ceremony the company went to S.M.B. Hall, No. 730 Benito Vista street, where they supped.

More than 200 guests tendered their congratulations and partook of the bountiful hospitality of Mr. and Mrs. Spadafora. G. Molieri's orchestra rendered a musical programme, and there was dancing and general merrymaking.

Mr. and Mrs. Busciano departed last night for a visit to several of the Southern California coast resorts. On their return they will make their home at No. 330 College street.

MAY COME HERE.

Great Western Smelting and Refining Company May Enter in
Los Angeles.

A. Alper, general manager of the Great Western Smelting and Refining Company, is expected from San Francisco on a visit within the next ten days, and it may be that he will decide upon the location of a smelter branch smelter here as well as a foundry for the Standard Brass Castings Company, an affiliated corporation. The matter is said to have been under consideration for some time.

At present Los Angeles is rapidly becoming the greatest point for the greatest mining regions of the Coast, for everything south of the Central Pacific line, including Nevada, Arizona, Utah, and Mexico, As a matter of fact the two great corporations it is one of the greatest there is on the Coast. The amount of copper used by the electric companies, the street railroads, and other estates, is almost inconceivable, thousands of dollars. The same is true of lead and other output. The company now

AT THE CITY'S GATES.

THE SOUTHWEST.

mission at West Jefferson street and La Salle avenue.

On the city is that of St. Agnes Catholic Church, which is now nearing completion at the corner of West Adams and Vermont avenue. The cost is to cost nearly \$100,000. The architecture resembles that of a cathedral.

Sewers have been laid on West Adams street from Hoover to Vermont avenue, with English brickwork.

Mrs. S. R. Thompson left Sunday for her home at Goldfield, after visiting for two weeks at the home of Mr. and Mrs. J. C. Beck, No. 118, West Thirty-third street.

The term opens Sept. 1, and regular classes will begin Aug. 25. Tuition is \$100 per year, and the course of study is three years.

The special features of the interior is the scheme of electric lighting. In the

church there is a large organ.

Alman and Houser have purchased the ice cream business formerly owned by Charles Spenser, at the corner of West Jefferson street and Wesley avenue.

James Daugherty of No. 1162 East Adams street has gone to Indianapolis to visit his parents.

Durell Draper of No. 1022 East Adams street, who is superintendent of the Vernon Congregational Sunday-school, has returned from a business trip to Chicago, Minneapolis and other eastern points.

HIGHLAND PARK.

Chief Engineer Mulholland, J. B. Lippincott, Lee C. Gates and Councilman Dromgold will speak tonight in Wood's Hall under the auspices of the Women's River Campaign Committee.

It is expected that work will be

done on the project by the end of the month.

Misses Jeanne W. and Mabel Madeline Mosher returned Saturday from a short trip to Fullerton.

THE NORTHWEST.

The newly elected officers of the Elwood League of the First United Methodist Episcopal Church were installed last evening at the close of the sermon. The following will serve the coming six months: Clyde Verge, pres-

sident; Mrs. Leila Gillmore, first vice-president; Miss Lele Wilkinson, second vice-president; Miss Hattie Penrod, third vice-president; E. O. Sawyer, fourth vice-president; Mrs. George Clark, secretary; and Curtis Logerton, treasurer.

The third year class of Occidental Academy entertained the seniors

Wednesday afternoon with a hayride to Arroyo Seco. A tamale supper was served on the way back, the party stopped at the home of Dr. Baer in Pasadena, where the students were entertained. About sixty young people, and professors, enjoyed the outing.

The Occidental Give Out, a give

and entertainment in Immanuel Presbyterian Church tomorrow night.

The Stevenson Literary Society of Occidental College elected the following officers last evening to conduct their affairs: Rev. Frank Achtemeier, president; J. Merle Smith, vice-president; William Holley, secretary; Charles MacDowell, treasurer; Frank Rush, sergeant-at-arms; Herbert Rankin, Arthur Spring, Watson Burt, censors.

"Midnight in Los Angeles." The club is making plans to organize other clubs in the ward.

F. B. Barber has sold the property at No. 392 East Sixty-sixth street, consisting of lot 5051, improved with a five-room modern cottage, to Samuel Hunter, for \$3000.

James Daugherty of No. 1162 East Adams street has gone to Indianapolis to visit his parents.

Durell Draper of No. 1022 East Adams street, who is superintendent of the Vernon Congregational Sunday-school, has returned from a business trip to Chicago, Minneapolis and other eastern points.

PIKO HEIGHTS.

The newly elected officers of the Elwood League of the First United Methodist Episcopal Church were installed last evening at the close of the sermon. The following will serve the coming six months: Clyde Verge, pres-

ident; Mrs. Leila Gillmore, first vice-president; Miss Lele Wilkinson, second vice-president; Miss Hattie Penrod, third vice-president; E. O. Sawyer, fourth vice-president; Mrs. George Clark, secretary; and Curtis Logerton, treasurer.

Merle Smith, vice-president; William Holley, secretary; Charles MacDowell, treasurer; Frank Rush, sergeant-at-arms; Herbert Rankin, Arthur Spring, Watson Burt, censors.

BOYLE HEIGHTS.

This part of the city is making a strong showing in favor of the Owens River water bonds. A rousing meeting was held last evening by the Elboway Improvement Association, which was unanimously in favor of the project. Other meetings will be held this week. Tomorrow evening the subject will be discussed at the meeting of the Boyle Heights Club at Elwood Heights Presbyterian Church, corner Euclid and Stephenson avenues. On Friday evening Councilman E. L. Blanchard, Lee C. Gates and others will address Boyle Heights citizens on the subject.

John Korbel Jr. of No. 198 East First street, returned last evening from an automobile trip, having visited Riverside, Elsinore, Glen Ivy Sanatorium and San Diego.

Charles F. Parker of No. 2302 East Second street, returned Thursday from Lawrence, Kan., where he was a representative to the general council of the Fraternal Aid Association.

John Noland, 21 years old, a few weeks, entertained their bridal party and a few other friends Tuesday evening, at their home, No. 320 North Soto street. Those present were Misses Ola and Geneva Kirk, Misses Grant, Mrs. Baldwin, Fred Lincoln, Bert Cleveland, and Mr. and Mrs. F. O. Glazier and Mr. and Mrs. George Baldwin.

Pecan street is graded, oiled and paved. The street is now open to traffic, the adjacent lots have been cut down to conform to the grade of the street.

Miss Mary West and Perry Ferguson were married Wednesday evening by Rev. Mr. Walker of the Baptist Church.

The brass band of the Pico Heights Congregational Church, consisting of ten members, held its first public service on the Owens River and the question of the paving of Sunset boulevard, Councilman Clappitt will also speak on these subjects.

J. E. Nichols, an old resident in the neighborhood, is seriously ill at his home at No. 2501 Boyle Avenue. He has recently undergone two serious surgical operations.

Frank Campbell, captain of the steamer Hercules, plowing on the Colorado River since Thursday evening and is spending a few days with his family on Bonita Creek.

Ralph L. and Mrs. Charles K. Benedict, of Ralph L. and Mrs. Charles K. Benedict, in honor of Mr. and Mrs. Benedict's twentieth wedding anniversary, on June 25, will be entertained at their home at No. 2301 Boyle Avenue. The occasion was the sixtieth anniversary of their wedding. Guests were present, many of them from the old home of the couple in the East. Rev. D. Habibie, a graduate of the University of California, will officiate.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

SH

COPPER STOCKS

THE LONDON-ARIZONA MINE

The SAFEST, QUICKEST and MOST PROFITABLE thing in the whole field of industrial investment at the present time is

Good Copper Stocks

For instance, here is the record of a few. All but one of these (the North Butte of Montana) are, you may say, right at the back door of Los Angeles, over in Arizona and Nevada and quite within the city's proper and natural sphere of financial influence, and the profits earned by the Arizona mines, mentioned last year to \$30,600,000. (Just think of it—almost thirty-one millions.)

And yet our beautiful and ambitious city got almost nothing out of that vast sum—all because we have been absorbed in the fascinating occupation of swapping jack-knives among ourselves and declined to interest ourselves in the great copper mines in the great mineral empire of Arizona, all of which by the natural laws of finance and trade should belong to Los Angeles.

Our real estate values would be safer and our financial institutions would be stronger, if we had the annual profits of Arizona's great copper mines coming to reinforce them.

Well, within three years the great

London-Arizona Copper Mine

should rank with the best in that great red-metal territory.

The conditions are so favorable that Mr. Charles E. Finney, the founder of the enterprise, who was for years the general administrative manager of all the vast mine and smelter interests of the Guggenheims in the United States and Mexico, and naturally from such an experience a man of exceedingly conservative and responsible statement, estimates that when the property is put in condition to smelt 3,000 tons of its ore a day, it can earn 100 per cent. a year on the price at which the first offering of treasury stock is made—and that it can do that (this is the notable and unmatched feature of the statement) with

Copper Selling at 13½ Cents a Pound

It couldn't do that unless it could produce its finished copper at as low a cost as any mine in the world—and the cost of producing the finished metal, laid down in New York, is the final test of the value of a copper mine.

The London-Arizona property covers 1280 acres of a copper deposit which good judges assert is

The Biggest Thing, The Quickest Thing And the Easiest Thing

In copper ever opened in Arizona. It can begin to earn dividends very soon. But it cannot earn the big dividends mentioned till the enterprise is in full operation.

Here is a list of copper mines and prospects with whose record the future of the great London-Arizona may be compared:

Some of the Younger Group of Great Copper Mines

	Cap. Stk.	Par Val. per share	Mkt. Val. per share	Total Selling Val.
Green Cananea, South of Bisbee, in Sonora	60,000,000	\$ 20.00	\$ 16.00	\$ 48,000,000
Calumet & Arizona, Bisbee, Arizona	2,500,000	10.00	17.00	44,000,000
(10 per cent. basis)				
(Not quoted on				
United Verde, Jerome, Arizona, (exchange. Close	3,000,000	10.00	200.00	60,000,000
Copper Queen, Bisbee, Arizona (corporations.	2,000,000	10.00	500.00	100,000,000
(Values based on				
(known earnings,				
Arizona Copper Co., Clifton-Morenci Dist., Ariz.	3,775,000	1.25	18.00	54,360,000
North Butte, Montana	9,000,000	15.00	103.00	61,800,000
Giroux Consolidated, Ely, Nevada	5,000,000	5.00	9.00	9,000,000
Cumberland, Ely, Nevada	5,000,000	5.00	10.00	10,000,000
Nevada Consolidated, Ely, Nevada	6,500,000	5.00	16.00	20,800,000

These last three are new Nevada copper companies, that have been listed within the last year and a half. They are very fine properties, with large and reliable bodies of low-grade ore that has to be concentrated before it

can be smelted. They furnish a favorable standard of comparison for the London-Arizona in that they are all in the prospect stage, and neither of them has ever paid a dividend or produced a pound of finished copper. They are, nevertheless, great copper properties, and their present market price is not in excess of their real future as profit-earners. The best one of them has less than half the acreage of the London-Arizona, and they are likely to be able to earn dividends sooner than the London-Arizona. The present market prices of those real sound and valuable copper stocks therefore furnishes a safe indication of the prices that purchasers of London-Arizona stock may hope to see their holdings rated at within a very few months, as soon as the company is in a position to have its stock listed on the New York and Boston Exchanges.

Those great Ely properties, once they reach the dividend-earning stage, will of course be rated very higher than at present, but we confidently believe the London-Arizona will pay dividends as soon as either of the

With equal confidence we believe that 30 to 40 months hence the London-Arizona will rank fully up to the present quoted market values of those two most admirably young properties—the North Butte and the Calumet and Arizona.

Those are two of the finest copper properties of the younger group of first-class producers. They share the London-Arizona the fundamental advantage of a management thoroughly experienced in all the technical administrative business of producing copper.

They share also with the London-Arizona the advantage of possessing a vast and reliable tonnage of the smelting ore of good average grade.

It cannot therefore be fairly questioned that the London-Arizona will presently be able to share equally with the public confidence as to both its management and its resources which makes them favorite investment stocks. They are two among a very small number of companies able to produce copper close to the very minimum cost, and it is our candid belief that, on the same scale of production, the London-Arizona will be able to keep finished out put down in the New York market a shade lower than either of them.

It is hardly necessary to mention that the cost of the product laid down in the market—the price at which it can be sold without any loss whatever—is the final and complete test of the value of a copper property.

As we assert and insist that in from 30 to 40 months the London-Arizona will rank with the Calumet and Arizona and the North Butte, we give here their record to date, that there may in the future be no question as precisely what we claim for the London-Arizona.

The Calumet & Arizona

Location. Bisbee, Arizona. **Capitalization.** \$1,000,000. **Shares.** par \$10.00. **Organized.** April, 1906. **Property.** twelve claims. **Production.** 1905, \$1,771,896 pounds copper. **Average copper content of ore.** 7.82 per cent. **Stock.** first sold at \$6.00 a share or at the rate of \$1,500,000.00 for the whole property. **March, 1907, stock sold at \$19.8 a share or at the rate of \$49,500,000.00 for the whole property.** **Cost of producing.** 7.4-10 cents per pound. **Profit by dividends to March, 1907, 46% per cent. per share.** **Profit by increase in value 238% per cent. both reckoned on the cost (\$6.00 a share) to first purchasers of stock.**

The above figures are official and may be relied upon implicitly.

The London-Arizona Copper Company

Is located at the junction of the Gila and San Pedro rivers in Gila county, Arizona, three miles from Phoenix Eastern R. R. It contains 68 claims (about 1280 acres), and has, we believe in perfect good faith, a dependable body equal to 83,000,000 tons of a self-fluxing, smelting ore that will average at least 5 per cent. (100 pounds a ton) in copper content—a perfectly self-fluxing ore, observe, that can be mined unusually cheaply, transported from the mine to the smelter for 5 cents a ton and dumped right into the furnace without any of the usual expense of "mixing."

We desire most especially to avoid exaggeration in presenting this great property to our clients. But we believe in absolute good faith that it is

The BIGGEST thing, the QUICKEST thing, and the EASIEST thing in copper ever opened in Arizona.

It is capitalized at \$10,000,000, par value of shares, \$10.

The price of the first offering is \$6. We have maps and the most responsible reports. Pray step into office and examine them.

The Joseph Ball Company, Inc. 315 S. Broadway, (Ground Floor) Los Angeles

NOW BELIEVE IT AN ACCIDENT.

DOUBT AS TO ALLEGED EFFORT TO WRECK TRAIN.

Investigation of the finding of a bar of iron in a frog at Burbank leads railroad detectives to the conclusion that it happened to drop there.

Investigation by the secret-service officers of the Southern Pacific led by their chief, Miles T. Bowler, an officer of long experience and tried ability, has led the railroad officials to come to the conclusion that no deliberate attempt was made at a certain morning at Burbank early Saturday morning. An angle-bar was found in a frog or in the open part of a switch there, and the matter was reported as being another attempt to derail a passenger train.

Detective Bowler stated last night that, in his opinion, the bar of iron was dropped from another passing train, and fell in the position in which it was found. It is doubtful whether this iron bar would have caused a derailment even had another train passed over it.

Since the Glendale wreck of less than two weeks ago, railroad detectives have been scouring the country in the hope of securing a clew to the man or men who threw the rail and caused that disaster. Saturday morning the discovery of an angle-bar wedged in the frog of the track at the crossing caused a second scare, and officers were hurried to the place, in the hope of securing a fresh clew to the band of main breakers.

According to the report of trainmen in the Burbank neighborhood the crew of a work train, passing the switch at 6:30 o'clock found an angle-bar wedged in the frog of the switch. Whether it had been put there with the intent of wrecking the train, or whether it had fallen from a car and become wedged in the frog is a matter of surmise.

A short time before the bar was found a north-bound train took the switch at safety. According to the statement of railroad men, it would have been possible for one of the angle-bars from the train to have been dislodged as the cars bumped through the switch and to have become lodged in the frog of the track. In that manner an accident would have made the company responsible.

Despite that probability of accident the officers are taking advantage of any clew, no matter however slight, that may turn up. "We are looking for the bar in the frog yesterday and we took up the investigation immediately," said Chief Bowler yesterday.

"There would have been such an easy matter for an angle-bar to have dropped from the end of some car to the frog and become wedged there that I have not as yet decided whether the placing of the bar in the frog was criminal or accidental. My men will keep right at it, however, and make a complete investigation."

"No preparations of any kind were made for the wrecking, if such was intended," said Dispatcher Bell of the River station.

"As soon as the men had found the bar they took it to headquarters. It would have been an easy matter for a man walking along the track to have

TRUST AFTER NEW THEATER.

SYNDICATE HUNTING HOUSE FOR VAUDEVILLE.

Klaw and Erlanger Varieties to Invade Coast Field, and Negotiations Are on for Theater Here—Denials That Hamburger Theater Is Being Considered.

The Friends Church of this city has extended a call to its pastor to Rev. Frank Cornell, one of the most prominent ministers of the denomination. He is the editor of the Canadian Friend, and has been serving as pastor to one of the largest Friends churches in Canada, that at Newmarket, Ont.

He has accepted the call and will be in Los Angeles the first Sunday in July to take up his new work.

Rev. Thomas Armstrong, who has been acting pastor for the past two months, preached last evening in this church. He holds the position of evangelistic superintendent of the Friends yearly meeting, and his duties will probably be as far as to where this vaudeville can play.

First opinions may fall on the new Hamburger theater, a fine, modern playhouse just started on South Broadway. Mr. Morris Goldsmith has worked hard for the independent attractions, feels that his original contract with the Shuberts will be carried out. It was stated with great positiveness, in Moroso's office last night, that no combination of any sort with the syndicate interests which fill the western field—will be extended to this coast within a few months.

No local information about this matter can be had as yet, but with this announcement speculation will probably be ripe as to where this vaudeville can play.

Word comes from New York that Klaw & Erlanger are now negotiating for a theater in this city, and that their new vaudeville chain—formidable antagonist to the great and established vaudeville interests which fill the western field—will be extended to this coast within a few months.

Word comes from New York that Klaw & Erlanger Varieties to Invade Coast Field, and Negotiations Are on for Theater Here—Denials That Hamburger Theater Is Being Considered.

Klaw and Erlanger Varieties to Invade Coast Field, and Negotiations Are on for Theater Here—Denials That Hamburger Theater Is Being Considered.
